

## Hans Dudeldee and Other Forgotten Fairy Tales

### Description

Hans Dudeldee and Other Forgotten Fairy Tales tells the story of a newly discovered collection of Bavarian folktales and brings these fresh fairy tales to life with an eclectic mix of puppetry from rod marionettes to cardboard cutouts.

Featuring live accordion music, sing-alongs and storytelling, Forgotten Fairy Tales keeps kids and parents entertained while presenting stories that read like the quirky cousins of Snow White or Cinderella. Sleeping in a basement archive for around 160 years, these tales now grace the portable Flying Box puppet stage with their fantastic adventures.
